**Academic Audit Report 2022-23**

Academic audit of session 2022-23 of all the faculties and departments has been conducted on 7<sup>th</sup> Nov. 2023. The audit was conducted by the committee constituted of Dr. Kavita Sharma, IQAC co-ordinator and head Department of Botany, Govt. Arts & Commerce Girls College Raipur, (CG) as external member, Dr. G Nag Bhargavi as IQAC coordinator and Dr. Nidhi Dewangan as member of IQAC. The committee has visited all the departments and gone through the format of academic audit and evidences given by the faculty. The committee has verified thoroughly the activities done by the department and programs organized by the faculty for the welfare of the students.

The departments audited by the committee are-

1. Arts                      History, Sociology, Hindi, English, Economics, Pol. Science
2. Science                Physics, Chemistry, Botany, Zoology, Mathematics.
3. Commerce

The following points were included in the format of academic audit: -

1. Completion of curriculum/syllabus in the given time
2. Results and pass percentage of students.
3. Maintenance of daily dairy and attendance register.
4. Continuous Internal evaluation of students done by the teachers.
5. Efforts made for slow and advanced learners.
6. Students Counselling and mentor-mentee cell records.
7. The student centric methods opted by the teachers for teaching.
8. Students progression
9. Research and innovation done by the faculty.
10. Cross cutting issues addressed by the faculty during session
11. Students placement
12. Other departmental activities.

### Final report:-

All the faculties have completed the syllabus in given time frame. The teaching diaries and attendance registers are maintained and also verified by the head timely. The faculty has also conducted parents' teachers' meetings. The list of short attendance students is prepared time to time and informed through whatsapp groups and also reported to the parents in the meeting.

The student's enrollment in each faculty was found progressive and satisfactory except few. The results of final year classes of all the programmes is more than 98% and also few students have first division score in each faculty, but the results 1<sup>st</sup> year classes in each faculty is poor. The number of first division students can be increased for which faculty has to focus on the meritorious and fast learning students.

The internal evaluation process followed by the faculty is appreciable. Class tests, unit tests, quarterly exams and pre-university exams were conducted and the results are documented.

In the institute the department of physics and mathematics jointly with IQAC have conducted value added course on research methodology. More than 30 students are registered in each course.

Each department has adopted various student centric methods of teaching and learning. Apart from traditional chalk and talk method some modern techniques are also opted. Invited lectures series by the all faculties, class room seminars by UG and PG students, field projects/trips for experiential learning, video lectures, powerpoint presentations, group discussion, MCQs, essay competitions, posture making etc. The teachers also conduct activities like celebration of important birth dates of famous personalities, days of national importance like Energy conservation week national mathematics day and National Science Day, August Kranti Diwas etc. the faculties from humanities are advised to start "Vlogs" etc.

Laboratories are found working properly within the limited resources and staff.

In order to minimize the limitations and to utilize resources from other higher educational institutes some of the dept. like Physics, Mathematics and Chemistry have signed MOU's. Some collaborative activities also have been done by the faculties under the MOU.

The teachers have also participated in seminars, conferences and workshops etc. the participation of faculty in orientation programs, refresher courses this year also good in number. Some of the teachers are presented their research work as

invited speakers in national level workshops/seminars. Some of the faculties have also have good number of research publications in high ranked peer reviewed journals. But the number of publications is very less as compared to the number of regular teachers. Two faculties from Sociology and Commerce have received research grants of Rs. 300000/- from ICSSR for research. The department of Physics has organized a National level seminar (online mode) jointly with Govt. Nagarjuna PG college of Science. The faculty is advised to submit minor research proposals and continue research work by collaborating with local industrial establishments. Also funded programs like National Science day, National Mathematics Day, National energy Conservation Day funded by CGCOST and CREDA were also organized by dept. of Physics and Mathematics.

Few suggestions given by the committee-

1. Departments need to sign MOU for research and academic collaboration.
2. Number of research publications done by the faculty is very less, the number need to be increased.
3. More student centric methods need to be opted by the faculty for teaching.

Govt. Pt. Shyamacharan Shukla College Dharsiwa, Raipur (CG)  
Academic Audit Report 2021-22

Academic audit of session 2021-22 of all the faculties and departments has been conducted on 17<sup>th</sup> Nov. 2022. The audit was conducted by the committee constituted of Dr. Kavita Sharma, IQAC co-ordinator and head Department of Botany, Govt. Arts & Commerce Girls College Raipur, (CG) and Dr. Nister Kujur, Professor & head SOS in sociology and social work, Pt. Ravishankar Shukla University, Raipur (CG) as external members, Dr. G Nag Bhargavi as IQAC coordinator. The committee has visited all the departments and gone through the format of academic audit and evidences given by the faculty. The committee has verified thoroughly the activities done by the department and programs organized by the faculty for the welfare of the students.

The departments audited by the committee are-

1. Arts                      History, Sociology, Hindi, English, Economics, Pol. Science
2. Science                Physics, Chemistry, Botany, Zoology, Mathematics.
3. Commerce

The following points were included in the format of academic audit: -

1. Completion of curriculum/syllabus in the given time
2. Results and pass percentage of students.
3. Maintenance of daily dairy and attendance register.
4. Continuous Internal evaluation of students done by the teachers.
5. Efforts made for slow and advanced learners.
6. Students Counselling.
7. The student centric methods opted by the teachers for teaching.
8. Students progression
9. Research and innovation done by the faculty.
10. Cross cutting issues addressed by the faculty during session
11. Students placement
12. Other departmental activities.

Final report: -

In the session three new courses have been introduced under self-finance scheme namely M. Sc. In Physics and Botany and M.Com. The faculty has completed the syllabus in given time frame. The teaching diaries and attendance registers are maintained and also verified by the head timely. The faculty has also conducted parents' teachers' meetings. The list of short attendance students is prepared time to time and informed through whatsapp groups.

The student enrollment in each faculty was found progressive and satisfactory. The result of all faculties is more than 98% and also few students have first division score in each faculty. The number of first division students can be increased for which faculty has to focus on the meritorious and fast learning students.

The internal evaluation process followed by the faculty is appreciable. Class tests, unit tests, quarterly exams and pre-university exams were conducted and the results are documented.

In the institute 8 departments have conducted value added courses successfully in different topics. More than 30 students are registered in each course.

Each department has adopted various student centric methods of teaching and learning. Apart from traditional chalk and talk method some modern techniques are also opted. Invited lectures series by the all faculties, class room seminars by UG and PG students, field projects/trips for experiential learning, video lectures, powerpoint presentations, group discussion, MCQs, essay competitions, posture making etc. The teachers also conduct activities like celebration of important birth dates of famous personalities, days of national importance like Energy conservation week national mathematics day and National Science Day, August Kranti Diwas etc. the faculties from humanities are advised to start "Blogs" etc. Laboratories are found working properly within the limited resources and staff.

In order to minimize the limitations and to utilize resources from other higher educational institutes some of the dept. like Physics, Mathematics and Chemistry have signed MOU's. Some collaborative activities also have been done by the faculties under the MOU.

The teachers have also participated in seminars, conferences and workshops etc. the participation of faculty in orientation programs, refresher courses this year also good in number. Some of the teachers are presented their research work as invited speakers in national level workshops/seminars. Some of the faculties have also have good number of research publications in high ranked peer reviewed journals. But the number of publications is very less as compared to the number of regular teachers. Two faculties from Sociology and Commerce have received research grants of Rs. 300000/- from ICSSR for research. The department of Physics has organized a National level seminar (online mode) on 26<sup>th</sup> June 2021 and Dept. of Mathematics has conducted National seminar on 3<sup>rd</sup> Jul. 2021. One National level workshop has been organized by department of Physics in May 2022. The faculty is advised to submit minor research proposals and continue research work by collaborating with local industrial establishments.

Few suggestions given by the committee-

1. Departments need to sign MOU for research and academic collaboration.
2. Number of research publications done by the faculty is very less, the number need to be increased.
3. More student centric methods need to be opted by the faculty for teaching.

Dharsiwa, Date- 22/10/21

**Academic Audit Report 2020-21**

Academic audit of session 2020-21 of all the faculties and departments has been conducted on 12<sup>th</sup> Oct. 2021. The audit was conducted by the committee constituted of Dr. Anjali Oudhia, Professor and head Department of Physics, Govt. Nagarjun PG College of Science Raipur, (CG) as external member, Dr. G Nag Bhargavi as IQAC coordinator, Dr. Shabnoor Siddiqui as internal member. The committee has visited all the departments and gone through the format of academic audit and evidences given by the faculty. The committee has verified thoroughly the activities done by the department and programs organized by the faculty for the welfare of the students.

The departments audited by the committee are-

1. Arts History, Sociology, Hindi, English.
2. Science Physics, Chemistry, Botany, Zoology, Mathematics.
3. Commerce

The department of Political science and Economics could not be audited due to lack of regular staff.

The following points were included in the format of academic audit: -

1. Completion of curriculum/syllabus in the given time
2. Results and pass percentage of students.
3. Maintenance of daily dairy and attendance register.
4. Continuous Internal evaluation of students done by the teachers.
5. Efforts made for slow and advanced learners.
6. Students Counselling.
7. The student centric methods opted by the teachers for teaching.
8. Students progression
9. Research and innovation done by the faculty.
10. Other departmental activities.

Final report :-

The faculty has completed the syllabus in given time frame. The teaching diaries and attendance registers are maintained and also verified by the head timely. The faculty has also conducted parents' teachers' meetings. The list of short

attendance students is prepared time to time and informed through whatsapp groups.

The student enrollment in each faculty was found progressive and satisfactory. The result of all faculties is more than 98% and also few students have first division score in each faculty. The number of first division students can be increased for which faculty has to focus on the meritorious and fast learning students.

The internal evaluation process followed by the faculty is appreciable. Class tests, unit tests, quarterly exams and pre-university exams were conducted and the results are documented.

Each department has adopted various student centric methods of teaching and learning. Apart from traditional chalk and talk method some modern techniques are also opted. Invited lectures series by the all faculties, class room seminars by UG and PG students, field projects/trips for experiential learning, video lectures, powerpoint presentations, group discussion, MCQs, essay competitions, posture making etc. The teachers also conduct activities like celebration of important birth dates of famous personalities, days of national importance like national mathematics day and National Science Day, August Kranti Diwas etc. the faculties from humanities are advised to start "Blogs" etc.

Laboratories are found working properly within the limited resources and staff.

The teachers have also participated in seminars, conferences and workshops etc. the participation of faculty in orientation programs, refresher courses this year also good in number. Some of the teachers are presented their research work as invited speakers in national level workshops/seminars. Some of the faculties have also have good number of research publications in high ranked peer reviewed journals. But the number of publications is very less as compared to the number of regular teachers. Also, no grants have been received by any department for research proposals. The department of Physics has organized a National level seminar (online mode) on 26<sup>th</sup> June 2021. The department of commerce has also conducted a national level webinar on 8<sup>th</sup> of June 2021. The faculty is advised to submit minor research proposals and continue research work by collaborating with local industrial establishments.

## Academic Audit Report 2019-20

Academic Audit of session 2019-20 of all the faculties and departments of the college has been conducted on 7<sup>th</sup> Dec. 2020. The audit was conducted by the committee constituted of Dr. Rajranch Kaur Kalsi, Asst. Professor, Department of Geography, Govt. College Gudhiyari, Raipur (C.G.) as external member, Dr. G. Nag Bhargavi, as IQAC Co-ordinator and Dr. Rashmi Kujur as internal member. The committee has visited all the faculties (Arts, Science and Commerce) in the college and gone through all the department. The committee has also verified thoroughly all the activities and programmes organised by the departments for the welfare of students and institute.

During the audit, the departments of History, Political Science, Sociology, Hindi & English from Arts faculty and Physics, Chemistry, Mathematics, Zoology, Botany from Science faculty and Commerce department were visited.

The department of Economics, due to lack of teaching faculty (after death of Shri N.K. Jain) could not be visited and audited.

The students enrolment in each faculty was found progressive and satisfactory. The results of each faculty is found satisfactory.

and appreciable with few first divisioners in each faculty. The number of students with first division could be increased for which the faculty of each has to focus on the meritorious and fast learning students in each class.

Syllabus was almost covered in each subjects. The teaching diary and attendance registers was maintained and were also verified by the principal timely.

Internal evaluations process has been followed by each faculty is appreciable. The class tests, unit tests, quarterly exams and pre-university exam was conducted timely and all results were documented properly.

Each department has opted various modern teaching and learning techniques alongwith the traditional chala and talk methods. This includes NPTEL lectures, classroom seminars, videos, project works, field trips, quiz competitions, essay competitions, extempore, posture making, speech cum lecture activities, celebration of various days, jayantis, exhibition, documentary movies, interdepartmental lectures, PPTs, group discussions, MCQ's etc. All these techniques adopted by the faculties are appreciable.

Date \_\_\_\_\_  
Page \_\_\_\_\_

Laboratories are found working under limited resources, ~~but~~ ~~stc~~ and lack of technical & laboratory staff. But, still the efforts done by the faculty of Science is worthe mentioning.

The teachers have also participated in Seminars, Conference, workshops etc.

The participation of faculty in Orientation programs, refresher courses this year is also good in number. Some of the teachers are presented their research work as invited speakers in National level workshop/ seminar which is quite appreciating. Some of the faculties have also a good number of research publication in high ranked peer reviewed journals.

The faculty of Science has organized a National level seminar with the financial support of local industrial establishments. The efforts made by faculty is appreciated.

The overall efforts are commendable

# Academic Audit Report

2018-19

Date \_\_\_\_\_  
Page \_\_\_\_\_

Academic Audit of session 2018-19 of all the departments of the college has been conducted on 7<sup>th</sup> August 2019. The audit was conducted by the committee constituted of Dr. T. J. Nair, Asst. Professor, Etc English, Govt. J. Yoganandam Chhattisgarh P.G. College, Raipur, CG (as External member), Dr. G. Nag Bhargavi (as IQAC coordinator), Dr. Rashmi Kujur (as member). The committee has visited all the faculties (Arts, Science, Commerce) in the college and gone through the various activities and programmes organised by the departments.

During the audit, departments of History, Political science, Sociology, Economics, Hindi and English from Arts faculty, Physics, Chemistry, Botany, Zoology and Mathematics from Science faculty and the faculty of commerce were visited.

The students enrolment in each faculty was found progressive. The result of each department was found satisfactory with few first divisioner students in each faculty.

Each department has opted various modern teaching and learning techniques apart from the traditional ones. This includes NPTEL lectures, Classroom Seminar, videos, project work, Quiz competition, Essay competition, extempore, poster making, Speech cum lecture activities, Celebration

of various days, Exhibition, documentary movie, inter departmental lectures, dissertations, ppts, group discussions and MCQ's etc.

Syllabus was almost covered in each subject. The teaching diary and attendance register was maintained and found verified by the principal.

Internal evaluation including class test, unit test, Quarterly, and pre-university exam was conducted timely and results were found documented.

Laboratories are found working under limited resources, but still the efforts done by the science teachers are commendable.

The teachers' participation in Seminar, conference, workshop is appreciable. Some of the teachers have very good research work with publications in high ranked peer reviewed journals.

The overall efforts done by the faculty are appreciable.
