#### **BEST PRACTICE**

### 01. Women empowerment

Objective: To encourage more female students to engage in academics.

The context: The college is situated in a rural area. Parent were not ready to send their daughter outside to the city for higher education . this institute provide them a place for getting education without going anywhere. The college has 80% girl students. So the primary focus of the institute is to provide facilities , safety and equal opportunity to them.

The Practice: For the fulfillment of purpose we have Women Development Cell, Cell Against Sexual Harassment(CASH), facility of separate Girls Common room equipped with sanitary wending machine along with the destroyer. Different activities are used to organized related to women empowerment.

Evidences in Support: On 8th March 2022 women's day is celebrated in which guest lecturer has been organized. By the joint efforts of Women Development Cell of the college and JAN SIKHHAN SAMITI Raipur a training and interactive session has been organized. In this nationally and internationally acclaimed dancer priyanka Kapil has invited. She also perform Bharatnatyam, katthak etc. which were excellent along with she taught students about form of different poses in dance. On 24/01/2024 On the occasion of "Rstriya BALIKA DIWAS" a short film is displayed at the seminar hall of the college by the joint effort of CASH(Cell Against Sexual Harassment) and women development Cell. In this 60 volunteers and students are actively involved.

Problem encountered: Because the institute is government funded so it become very tough to spend money for the betterment of girls. Collaboration with the private firm near by require more political approach

## **02.** Green Campus Initiatives

Objective :- The objective of this practice is to aware the students about environmental sustainability, cleanliness, socio-environmental responsibility.

The Context :- Our college is situated in a industrial area that's why here environmental pollution is a major issue. To contribute toward healthy environmental factor air, soil, water we choose this practice. This is performed by planting trees, cleaning the college campus ,banning polythene use etc.

The practice: World environment Day at 5th June is celebrated. Energy conservation week has been organized. Value added course -Renewable energy has conduted., Plantation week in July month is also organized in which more plants are planted. Garden development and management is also performed ,Polythene use are banned, various awareness program like poster, Rangoli competitions were organized.

Evidence of support: Plantation is done on the theme of "Mor Mati Mor Desh" on 20<sup>th</sup> July 2023. World environment Day has been celebrated on June 5<sup>th</sup> 2023. Medicinal plants are planted by department of Botany. Photo attached.
