

Academic Audit Report 2023-24

Academic audit of session 2023-24 of all faculties and departments has been conducted on 4th on 2025. The audit was conducted by the committee constituted of Dr. Rajesh Dubey, Principal, Shaheed Rajiv Pandey Govt. College, Bhatagaon, Raipur (C.G.) as Co-ordinator & Subject expert for Faculty of Arts, Dr. Madhu Srivastava, Principal, Govt. Naveen Kanya College, Gobara Navapara, Rajim (C.G.) as Member & Subject expert for Faculty of Science and Dr. Gyanendra Shukla, Professor, Dept. of Commerce, Shaheed Nand Kumar Patel, Govt. College Birgaon, Raipur (C.G.) as Member & Subject expert for Faculty of Commerce. The committee has visited all the departments and gone through the format of academic audit and evidences given by the faculties. The committee has verified thoroughly the activities done by the departments and various activities & programs organized by the faculties for the quality enhancement of the students.

The departments audited by the committee are as follows :-

1. Arts - History, Sociology, Hindi, English, Economics, Pol. Science
2. Science - Physics, Chemistry, Botany, Zoology, Mathematics.
3. Commerce

The following points were included in the format of academic audit: -

1. Completion of curriculum/syllabus in the given time
2. Results and pass percentage of students.
3. Maintenance of daily dairy and attendance register.
4. Continuous Internal evaluation of students done by the teachers.
5. Efforts made for slow and advanced learners.
6. Students Counselling and mentor-mentee cell records.
7. The student centric methods opted by the teachers for teaching.
8. Students progression
9. Research and innovation done by the faculty.
10. Cross cutting issues addressed by the faculty during session
11. Students placement
12. Other departmental activities.

Final report:-

All the faculties have completed the syllabus as per designed in academic calendar 2023-24 provided by Department of Higher Education, Govt. of C.G. The Daily teaching diaries and attendance registers are maintained and also verified by the head of the institution timely. The faculty has also conducted parents' teachers' meetings regularly and as per the comments and

remarks given by the parents the college has done commendable work to impart quality education to students. The list of short attendance students is prepared time to time and informed through whatsapp groups and also reported to the parents in the meeting.

The student's enrollment in each faculty was found progressive and satisfactory . The results of final year classes of all the programmes is more than 98% and also few students have first division score in each faculty. The number of first division students can be increased for which faculty has to focus on the meritorious and fast learning students.

The internal evaluation process followed by the faculties is appreciable. Class tests, unit tests, quarterly exams and pre-university exams were conducted and the results are analyzed documented. Each department has adopted various student centric methods of teaching and learning. Apart from traditional chalk and talk method some modern techniques such as use of ICT tools.

Invited lectures were organized by the all faculties, class room seminars by UG and PG students, field projects/trips for experiential learning, video lectures, power point presentations, group discussion, MCQs, essay competitions, posture making etc. The teachers also conduct activities like celebration of important birth dates of famous personalities, days of national importance like Energy conservation week national mathematics day and National Science Day. August Kranti Diwas etc. the faculties from humanities are advised to start "Vlogs" etc.

Laboratories are found working properly within the limited resources and staff.

In order to minimize the limitations and to utilize resources from other higher educational institutes some of the dept. like Physics, Mathematics and Chemistry, Commerce, Sociology have signed MOU's. Some collaborative activities also have been done by the faculties under the MOU's. The teachers have also participated in seminars, conferences and workshops etc. the participation of faculty in orientation programs, refresher courses this year also good in number. Some of the teachers are presented their research work as invited speakers in national level workshops/seminars. Some of the faculties have also have good number of research publications in high ranked peer reviewed journals. Two faculties from Sociology, Dr. Rashmi Kujur and Dr. Sanjay Singh from Commerce have received research grants of Rs. 300000/- from ICSSR for minor research project and for major research project Rs. 1500000. The faculties are advised to submit minor research proposals and continue research work by collaborating with local industrial establishments. Also funded programs like National Science day, National Mathematics Day, National energy Conservation Day.

Few suggestions given by the committee-

1. Departments need to sign MOU for research and academic collaboration such as MOU with state women commission with department of Sociology.
2. More student centric methods need to be opted by the faculty for teaching.
3. Educational tour to Vidhan Sabha should be organized for the students of M.A. Political Science.
4. Attempts to start Research Centre are needed in departments like Hindi, Mathematics and Political Science.

5. Courses on communication skills, Spoken English should start for students of department of English.

6. Since Number of students in department of English are more than one thousand and student teacher ratio is 1:1000 which is very challenging to impart quality education it is advised to write an application to government for creating one more post in English.

7. Information should be given to students regarding various online portals such as SWAYAM, MOOCS etc.
